### **Empowering the VET Sector: Skills-Cloud Project Successfully Completes Joint Staff Mobility in Spoleto, Italy**

*Spoleto, Italy, 2nd March 2024* – The "Up-skilling the VET Sector to Cloud Computing" (Skills-Cloud) project proudly announces the successful completion of its Joint Staff Mobility, held from February 26 to March 2, 2024, at the IIS Spagna-Campani Vocational Education and Training (VET) Institute. The event, organized by the Skills-Cloud consortium, was a resounding success, equipping VET providers with essential cloud computing skills and knowledge to drive innovation in the sector.

The Joint Staff Mobility event aimed to empower VET providers from partner countries by offering an immersive learning experience on cloud computing, a rapidly growing and essential skill in the modern labor market. The training sessions were based on educational materials and toolkits developed by the Skills-Cloud project, focusing on equipping educators with the tools to transform their training offerings.

Participants engaged in hands-on training led by cloud computing experts, covering six core modules developed for the "Training Scheme and Assessment Model." These modules included:

- 1. Introduction to Cloud Computing for Education**
- 2. Cloud-Based Collaborative Tools for Education**
- 3. Cloud-Based Content Creation for Education**
- 4. Cloud Security in Education**
- 5. Cloud Storage Solutions**
- 6. Cloud-Based Assessment and Evaluation**

The sessions provided in-depth knowledge and fostered collaboration among VET providers, enabling them to exchange best practices and learn from one another. In addition, the Joint Staff Mobility introduced participants to an innovative e-learning platform developed by the Skills-Cloud partners, offering continuous support for ongoing training efforts.

The Skills-Cloud project is committed to enhancing the competencies of VET providers and learners across Europe, ensuring that their training aligns with current industry needs. Educators gained valuable insights and resources through this Joint Staff Mobility event to better prepare their students for a cloud-driven future.
